

August 13, 2025

Registration, Evaluation, and Authorization of Chemicals (Reach) entered into force in June 2007 for the intent of protection to human health and the protection of the environment. REACH included adding Three new substances of very high concern on June 25th, 2025. However, Rubadue Wire Co., Inc. is a producer of “articles” and therefore must rely on suppliers for pre-registration.

REACH also addresses the continued use of 250 substances defined as “Substances with Very High Concern” (SVHC). Rubadue Wire Co., Inc. does not intentionally use or add any of the 250 (SVHC) above 0.1% weight and we have also confirmed with our raw material suppliers that these substances are not intentionally used or added above 0.1% weight.

Sincerely,

Ty K. Ericson
